

SKILLS & EXPERTISE

Languages:

- JavaScript (ES6)
- TypeScript

Front-end Stack:

- ReactJS (ES6, JSX, lazy, Hooks)
- React Native (Native CLI)
- Redux (action creators, ducks)
- React Query
- NextJS / GatsbyJS
- Redux Middleware (Thunk, Saga)
- Webpack
- GraphQL
- SASS (mixins, SCSS)
- Tailwind

Back-end Stack

- Node JS
- ExpressJS
- Socket.io

Databases:

- MySQL
- MongoDB

Integrations:

- Apple StoreKit
- Stripe
- Firebase
- Open AI
- Google Maps
- Sentry
- Google Analytics

Testing:

- Jest (Enzyme)
- RTL
- Cypress

AWS:

- Lambda
- Cognito
- S3, CloudFront
- Route53

CI/CD:

- Git
- MonoRepo
- Docker
- CLI yml (Github, GitLab)
- Vercel

EXPERIENCES

nnamu GmbH

Jan 2024 - Present

Senior Front-end Engineer

[negobot](#) [NextJS, React, TypeScript, webpack, Prime React, Tailwind]

- Refactored the negotiation lifecycle overview in the app for 3 different user access levels.
- Drafted C4 diagrams, for the architecture for product service-desk with custom integration of Confluence and JSM.

Sharpist GmbH

Apr 2022 - Dec 2023

Senior Front-end Engineer

[Sharpist](#) [React, TypeScript, nx monorepo, webpack, AntD, Storybooks]

- Restructured the mono repo setup for 6 projects including, product, components, storybooks, and tests alongside.
- Took charge of a new project visualizing 10+ business KPIs transparently to the customers for better business strategy.
- Developed 10+ data visualization components using Canvas API from scratch for custom analytics for users.
- Implemented the unit test for the legacy code to maintain a coverage of 85% and above

VentureDive

Jan 2019 - Dec 2021

Sr. Software Engineer

[Munchies](#) [ReactJS, Redux, thunk, Firebase, Google Maps]

- Enhanced reusability, implementing schema-based data-grids with 34 different renderers for the lists in CRUDs.
- Contributed in build optimization tasks, shrunk initial load time under 1 seconds.
- Created an auth based routing scheme for react app based on role based access to maintain security and access fallback.
- Led a team of 3, polished my mentorship skills along with maintaining a healthy engineering culture.

Markinson

Mar 2017 - Dec 2018

Software Developer

[Momentum Pro V4](#) [React, Redux, Material UI, Saga Middleware]

- Implemented pluggable as well as extendible UI components with a specific style guide, narrowed the coding effort by 50%.
- Shaved off 50% of development effort on boilerplate, introducing action creator and duck with react-redux.
- Managed a team of 4, for the intervening time. Amplified my people skills being a lead and the scrum master.

EDUCATION

Punjab University College of Information Technology, Lahore, Pakistan

Oct 2013 - Jul 2017

Bachelor in Computer Science

- UI Design Instructor, Artificial Intelligence Multidisciplinary Research Lab, 2015-17
- Executive Marketing Manager, PUCIT-ACM Student Chapter 2016-17
- Graphic Designer, PUCIT-ACM Student Chapter 2015-16
